

MOGHITH B K

MERN Stack Developer — Machine Learning — Data Analytics

Villupuram, Tamil Nadu, India

bkmoghith@gmail.com | 9003591669 | <https://linkedin.com/in/moghith-b-k-66b933309> |

<https://github.com/MOGHITH-B-K> | <https://moghithbk.vercel.app>

Professional Summary

B.Tech Artificial Intelligence and Data Science student with hands-on experience in Python, Machine Learning, SQL, Excel, Power BI, and Data Visualization. Experienced in building real-world projects including data-driven applications and dashboards. Skilled in analyzing datasets, developing ML models, and transforming data into meaningful insights. Seeking internship or entry-level opportunities in Data Science, Machine Learning, Software Testing, MERN Stack Developer and Analytics roles.

Education

Takshashila University 2023 – 2027

Bachelor of Technology - Artificial Intelligence and Data Science (CGPA 8/10)

Gandhi Memorial Higher Secondary School

Higher Secondary Education - Computer Science 2021 – 2023

Gandhi Memorial Higher Secondary School

SSLC 2020 – 2021

Technical Skills

Programming Languages: C++, Java, Python, HTML, CSS, JavaScript, ReactJS, SQL

Data Science: Machine Learning, Predictive Modeling, Data Analysis, Data Visualization

Libraries and Tools: Pandas, NumPy, Matplotlib, Seaborn, Excel, Power BI, MS Office.

Database: MySQL, SQL Database Management

Other Skills: Dashboard Development, Problem Solving, Team Collaboration, Time Management, Leadership, Event Organizer.

Projects

Billing Management System <https://sreesaidurga1.vercel.app/>

- Developed a billing application to manage customer transactions and records.
- Implemented database operations and structured data handling.
- Improved understanding of software development and database concepts.

Attendance Tracking System <https://tuattendances.base44.app/>

- Developed an attendance tracking application to record, monitor, and manage student/employee attendance efficiently.
- Implemented secure database operations for storing attendance records, user details, and generating attendance reports.
- Designed features such as user authentication, attendance history, and automated report generation to improve accuracy and reduce manual effort.
- Strengthened skills in software development, database management, CRUD operations, and data handling through end-to-end project implementation.

Bank Management System

- Developed a banking application to manage customer accounts and financial transactions.
- Implemented features including account creation, deposits, withdrawals, balance enquiry, account modification, and account closure.

- Improved understanding of software development, database management, and transaction processing concepts.

Sales Analysis Dashboard using Power BI

- Developed an interactive sales analysis dashboard using Power BI to visualize key business performance metrics.
- Performed data cleaning, transformation, and modeling using Power Query and DAX to ensure accurate reporting.
- Analyzed sales trends, revenue, profit, customer segments, and regional performance through dynamic visualizations.

Internships

AICTE Virtual Internship - SQL and Database Management Systems Apr 2026 – Jun 2026

- Worked on SQL queries, relational databases, and database concepts.
- Practiced database design and data management techniques.
- Developed SQL scripts using DDL, DML, DCL, and TCL commands to perform database operations efficiently.
- Gained hands-on experience in writing complex SQL queries, joins, aggregate functions, subqueries, and database normalization for efficient data retrieval and management.

AICTE Virtual Internship - AI in Cyber Security Jan 2026 – Mar 2026

- Explored applications of Artificial Intelligence in cybersecurity.
- Studied AI-based techniques for threat detection, malware analysis, and network security.
- Gained hands-on experience in identifying cybersecurity vulnerabilities and implementing security best practices.
- Enhanced understanding of machine learning concepts for anomaly detection and cyber threat prevention.

AICTE Virtual Internship - AI/ML Apr 2025 – Jun 2025

- Learned machine learning workflows and model development concepts.
- Worked with data preprocessing, feature engineering, and exploratory data analysis techniques.
- Developed and evaluated machine learning models using supervised learning algorithms and performance metrics.
- Gained hands-on experience with Python libraries such as NumPy, Pandas, Scikit-learn, and Matplotlib for data analysis and model development.

AICTE Virtual Internship - Android Developer Apr 2024 – Jul 2024

- Developed understanding of mobile application development.
- Worked with Android UI components, activities, intents, and layouts to build interactive mobile applications.
- Gained hands-on experience in debugging, testing, and deploying Android applications while following mobile development best practices.

Certifications

- Python for Data Science
- Machine Learning with Python
- SQL and Relational Databases 101
- Predictive Modeling Fundamentals I
- Data Analysis with Python
- Deep Learning Fundamentals

Languages

Tamil, Telugu, English.
